REVISÉD FRONT PARKING AND DIRECTIONAL  
**SUBJECT** LIGHT LENSES - 1964 MODEL PASSENGER CARS      **NUMBER** J-1964-7

**FROM** C. R. MC INTOSH, Manager      **DATE** April 9, 1964  
 Technical Service Operations

In order to conform to certain state regulations, the front parking and directional light lenses have been changed from clear to amber color on 1964 model passenger cars effective with serial numbers C-100789 and C-500845. At the same time, the color of the bulb has been changed from amber color to clear.

In certain states, where periodic vehicle inspection regulations are in effect (New York, New Jersey, Pennsylvania, Virginia, California and District of Columbia), you may occasionally have a car refused an inspection sticker because of the clear lenses. Where this occurs, you should proceed immediately to replace the clear lenses with the amber lenses and replace the amber bulbs with clear bulbs, using the part numbers listed below:

<u>Quantity</u>	<u>Part No.</u>	<u>Description</u>
1	1360694	Parking and Directional Lamp Lens - Right
1	1360695	Parking and Directional Lamp Lens - Left
2	G-454645	Parking and Directional Lamp Bulb

On Avanti models, the amber lenses and clear bulbs are available under part numbers:

<u>Quantity</u>	<u>Part No.</u>	<u>Description</u>
2	1360697	Parking and Directional Lamp Lens
2	G-454645	Parking and Directional Lamp Bulb

**CAUTION:** An amber lens and an amber bulb should not be used together.

The Parts Depots will stock both clear and amber lenses and clear and amber bulbs for your service requirements, and these parts are available on order.

A B-865 Claim for Credit will be accepted where you find it necessary to replace lenses and bulbs.
